## Motorways of the Sea: the Italian experience

*Alberto Cappato*

# **The context: The European transport connection system**

The development of European transport connections foresees:

- ➡ TEN-T (Trans-European Network - Transport) for EU Member States
- ➡ Paneuropean Corridors for non-Eu Member States connections

The European Council and the European Commission established a priority project list ("Van Miert" Report), approved by the EU Parliament on April 21, 2004, including the development of the "Motorways of the Sea", in order to support the Trans-European Transport Network

## The context: TEN-T Network

---

The Trans-European Transport Network (TEN-T) main objectives are:

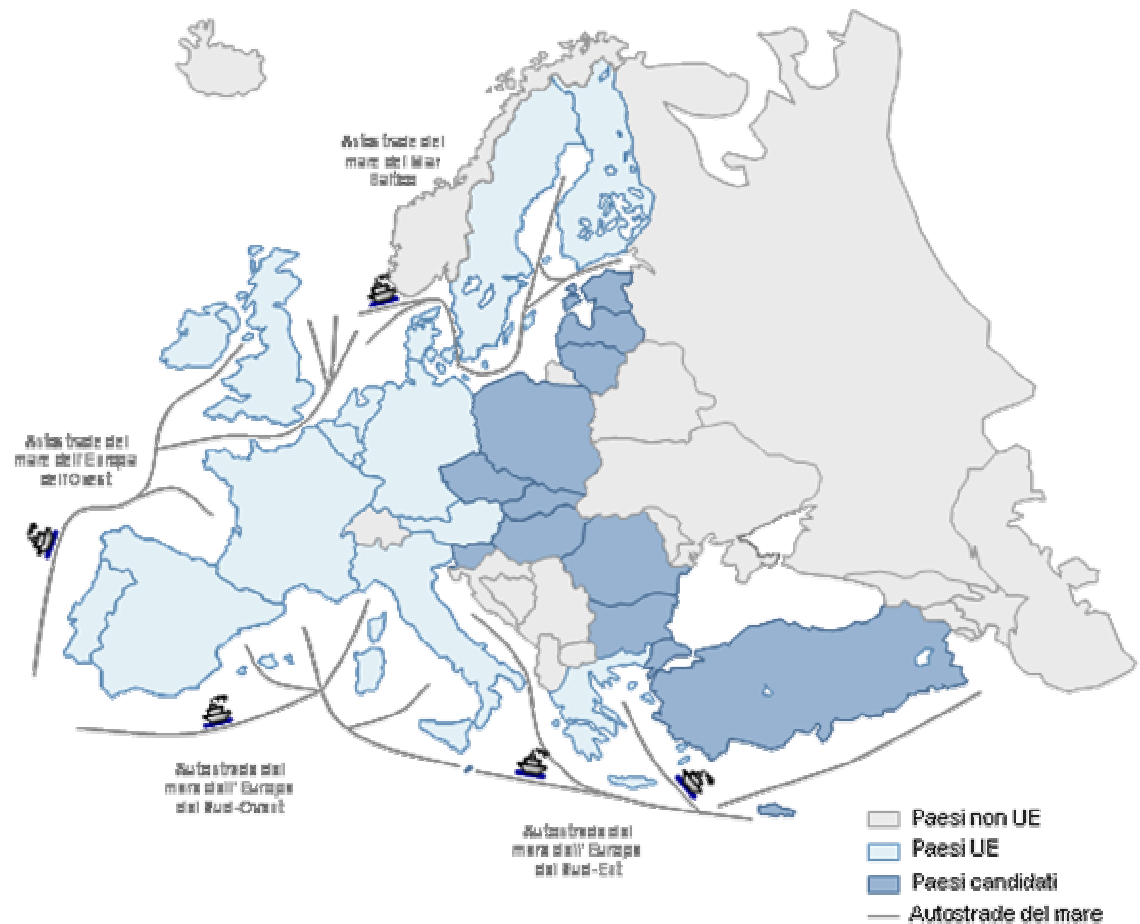

- Develop the commercial exchanges;
- Balance the EU Member States economies

## The context: TEN-T Network – Motorways of the Sea

In the EU Van Miert High Level Group Report, the “Motorways of the Sea” are included in the “quick start” list.

1,8 billion euro are assigned to “Motorways of the Sea”, a very important project for the development of Short Sea Shipping within the Mediterranean Sea.

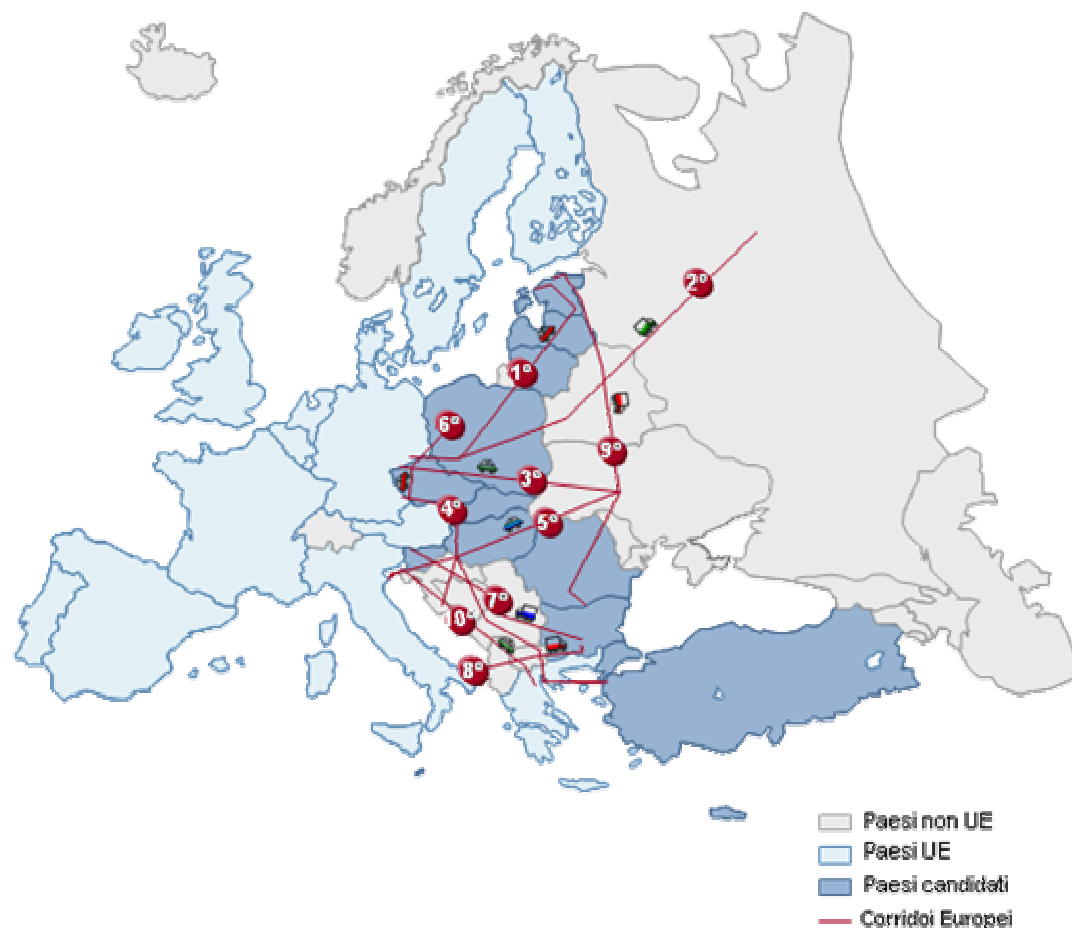

## The context: Paneuropean Corridors

---

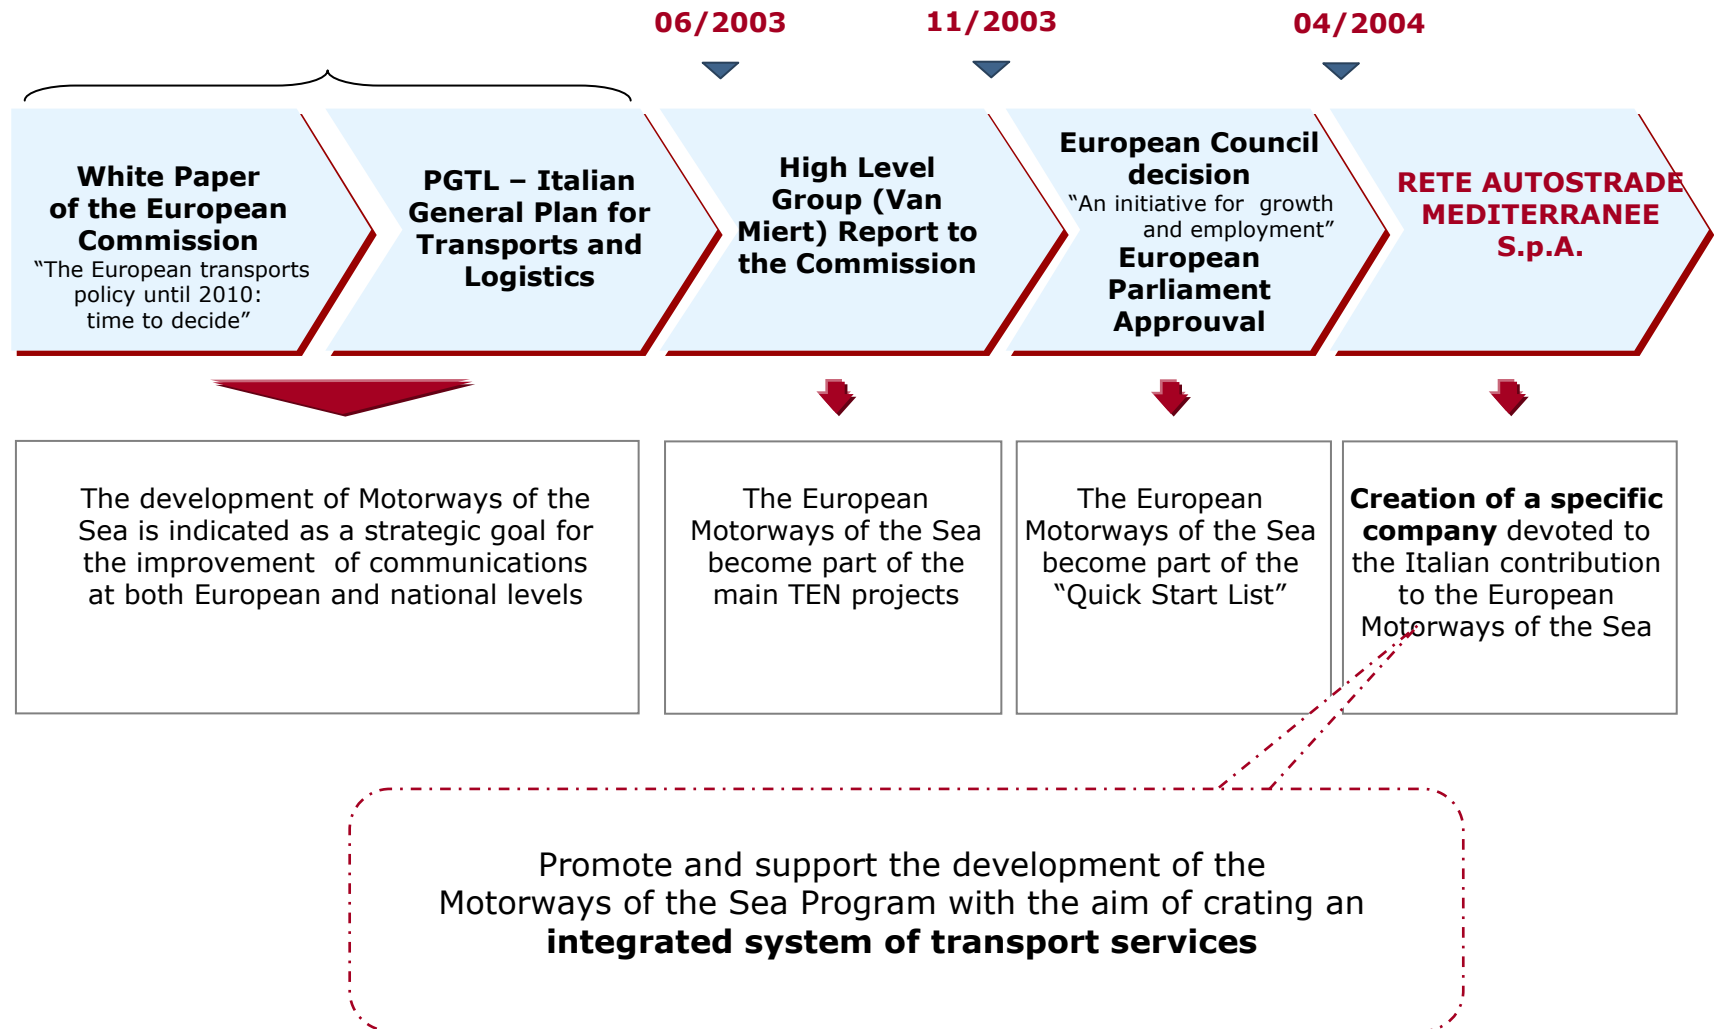

The 10 Paneuropean Transport Corridors represent the extension to the East of TEN-T Transport Network.

The multimodal and integrated Corridors are the following:

- 1) Helsinki – Warsaw
- 2) Berlin – Moscow
- 3) Berlin – Kiev
- 4) Dresden – Istanbul
- 5) Venice – Kiev
- 6) Danzica – Zilina
- 7) Danau river way
- 8) Bari – Varna
- 9) Helsinki– Alessandropoli
- 10) Salisburg - Thessaloniki
