

Grandi Navi Veloci was established in 1992 with the aim to introduce a new concept of ship in the Mediterranean Area, combining the requirement of a quick transport of passengers, vehicles and goods with the comfort and luxury of a cruise ship.

Line Genoa / Barcelona / Genoa

Goods transport without borders

Our ships are equipped with numerous plugs-in for electrical connection of vehicles.

During the voyage our staff check periodically the correct working of electrical connections, reporting immediately any possible abnormalities / problems.

Line Genoa / Barcelona / Genoa

The Safety

The loading and unloading operations of the trailers are performed by professional staff that utilize updated vehicles, equipped with hydraulic lifting appliances.

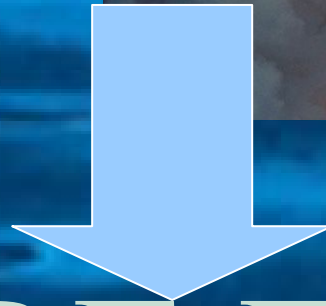

All vehicles travel in bright garages which are closed and inaccessible to passengers during the voyage, moreover there is a closed camera system that checks everything.

Line Genoa / Barcelona / Genoa

- Best service for customers
- Best price
- Quick delivery
- Safety
- High quality of work
- Respect of environment
